Career Objective

I'm a Computer Science Engineering student with a strong interest in **web development** and creating real-world digital experiences. I enjoy building clean, interactive websites and exploring how code can bring ideas to life. With a background in logic, design, and application-building, I'm looking to expand my knowledge through hands-on work and team-driven projects. I'm especially excited about working on modern web technologies and continuously growing as a developer in a fast-paced, creative environment.

Education

G. Narayanamma Institute of Technology and Science
B.Tech in Computer Science and Engineering
Current Semester: 2-2
CGPA: 9.4/10

Kamala Nehru Polytechnic for Women
Diploma in CSE (2021 – 2024)
CGPA: 9.6/10

MJPTBCWREI School
SSC (2020 – 2021)
GPA: 10/10

Technical Skills

Programming Languages: Python, Java
Core Concepts: Object-Oriented Programming, Problem Solving

Projects

Age and Gender Detection
Developed a web-based model using Python in Jupyter Notebook and Google Colab to predict age and gender from facial images.
